Rev. Robert A. Moore, Jr.  
Administrative Bishop  
Church of God  
Baton Rouge, LA. 70879

Greetings in the lovely name of our precious Lord! I pray this letter finds you and yours in good health and filled with His marvelous Spirit.

I send you this letter to encourage you to have the pastors of your fellowship schedule Rev. Farone for as many revivals as his itinerary can maintain. I've had the privilege of knowing Nick and Sandy for well over twenty years. They were members of our church and our next door neighbors when we pastored Trinity Assembly of God in Bastrop, LA. from 1987-1993. I've had him for numerous revivals through the years and many special services. He is truly a prince of God and his purity, honesty and true love for the Lord and His church are refreshing and rare traits to find in an evangelist today.

We recently had Nick and Sandy for revival March 7-10. The meeting started on a high note and steadily built to a genuine crescendo of faith. We saw the body of Christ encouraged, challenged and pointed in the correct direction to maintain a walk of faith long after the revival services ended.

Numerous healings and answers to prayer took place during our revival. One long time member of the church was in a financial bind and received a letter "out of the blue" from the IRS for \$1,100.00 instead of the \$161.00 they had originally sent them. Another faithful member of our church was having a hard time financially from not working over the holidays and his truck payment was reduced from over \$800.00 a month to just over \$450.00. It was a true miracle for the company to reduce the payment at all, much less that amount. A young lady's brother and sister we diagnosed with needed heart transplants and during the revival they were re-diagnosed and it was discovered with a new medication they would not need the transplants. Another brother kneeled at the altar during one of our prayer sessions and Brother Nick laid hands on him and anointed him with oil and God instantly healed him of a two day ear infection.

I give my highest recommendation to any pastor that's tired of seeing no results with evangelists and is ready for a man who truly wants only God's best for the local church. Please feel free to call me or email me if you have any questions @ cistre54@yahoo.com or 386-965-2227.

Because of grace;

Charles Istre
